

# BATTERY RESCUE

## USED BATTERY GENERATORS

### USED BATTERY COLLECTION SERVICE

The Service is convenient, easy and meets all your regulation obligations;

1. Battery Rescue supplies your company with a **FREE** purpose built, patented **Battery Transport & Storage (BTS) Container** for you to store your **Used Lead Acid Batteries** on. (Conditions apply please refer to our Order Form).
2. Once installed we will collect the **fully loaded BTS Container** (and deliver an empty **Exchange Container** at the time of collection).
3. Batteries collected via our contracted transport provider\* are shipped for recycling to one of two Australian recycling facilities.
4. When the shipment weight has been confirmed we will email a Recipient Created Tax Invoice (RCTI) and EFT payment\*\* within 7 days.

\* Contracted Transporter holds current Controlled Waste Carrier License for lead acid batteries.

\*\* For current prices paid please see [www.batteryrescue.com.au/prices](http://www.batteryrescue.com.au/prices)

*For fast, friendly service contact us*

*NOW to order **your...***
